

**REMARKS**

Claim 91 has been cancelled, and three new independent Claims 96, 97, and 98 have been added. Note that both the cancelled claim and the new claims are directed to utilizing the location of a mobile station wherein there is at least one component used in determining the mobile station location, such that this one component accesses or uses at least two networks. Moreover, note that the new claims are also similar in this context to allowed Claims 80, 81, and 89.

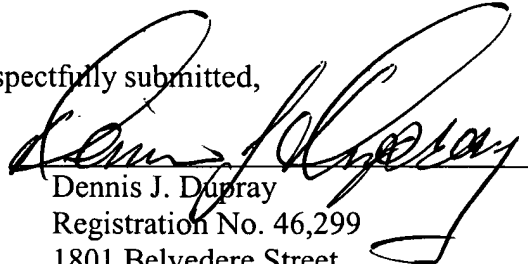

It is the Applicant's intention to add subclaims dependent upon the new independent Claims 96, 97, and 98. Thus, Applicants respectfully request that if the pending claims are determined to be allowable by the Examiner, that the Examiner contact the below identified Applicant so that the additional subclaims can be promptly added to the present application.

Accordingly, since all claims are believed to be in condition for allowance, it is requested that the present application be reconsidered.

An RCE with the requisite filing fee and an additional information disclosure statement are being filed concurrently with this Preliminary Amendment. Also enclosed is a check in the amount of \$129.00 as payment for the addition of independent Claims 96, 97, and 98. If any other fees are due, the undersigned Applicant requests a phone call at 303-863-2975.

Respectfully submitted,

By:
